PROJECTS

- **PORTFOLIO:-** An online portfolio (may also be called a digital portfolio or e-portfolio) is an online representation of work you have created, as well as your skills and experiences. Here, you can show my projects and my work.This is a static website and only **HTML,CSS and JS** is used to make this portfolio.([please click here!](#))
- **EZEEBOOK:-** This project is a website that acts as a central book store. This web project is developed using **HTML,CSS,JAVASCRIPT and BOOTSTRAP** as the front-end and CPP or JAVA as a back-end. The SQL database stores various book related details. A user visiting the website can see a wide range of books arranged in respective categories. The user may select desired book and view its price. The user may even search for specific books on the website. Once the user selects a book , he then has to fill in a form and the book is booked for the user.
- **TOUR AND TRAVEL WEBSITE:-** It is a dynamic website which help user to book destination for their holiday. For making this website we use **HTML,CSS,JS AND REACT JS**. REACT js is use for making website dynamic and user friendly.
